

## **HOMELAND URANIUM INC. ANNOUNCES ADDITION TO BOARD OF DIRECTORS**

July 15, 2009

FOR IMMEDIATE RELEASE

TORONTO – **Homeland Uranium Inc.**, (“Homeland” or the “Company”) is pleased to announce the appointment of Dr. Laurence Curtis to the Board of Directors effective June 30, 2009.

Dr. Curtis is a Professional Geologist BSc (Hons), Australian National University (1969) and PhD, University of Toronto (1975), with forty years of international mineral exploration experience with direct experience in Africa, Greenland, North, South and Central America, and the Pacific.

Dr. Curtis was President of Curtis & Associates, a mineral resource consulting firm from 1980 to 1996. During this time, Dr. Curtis consulted for a number of large, multi-national companies and served as a director for several of these companies.

Dr. Curtis founded Intrepid Minerals Corporation in 1995 and was President, CEO and director. Following the merger with Nustar Mining in 2006 the company name was changed to Intrepid Mines Limited. Intrepid Mines merged with Emperor Mines in 2007 following which Mr. Curtis stepped down as President and CEO but remains as a director. Mr. Curtis is a member of the Association of the Professional Geoscientists of Ontario.

Dr. Curtis is currently a director of Alturas Minerals Corporation, Intrepid Mines Limited and Homeland Uranium Inc.

“We’re delighted to have someone of the stature of Laurie join our board of directors”, Nick Tintor, President and CEO said. “Laurie brings years of international business and exploration expertise to our board and I personally look forward to working with him and the rest of our board in building our company.”

### **Homeland Uranium Inc.**

The Company is engaged in the acquisition, exploration and development of uranium properties. The Company’s focus is on exploration for uranium in the Arlit region of Niger, where the Company has an interest in the Agelal Project and the Asekra Project, which include eight exploration concessions covering an area of approximately 3,731 square kilometres within the Tim-Mersoï Basin.
